Profile

Software engineer passionate about web development and innovative technologies, I have gained solid expertise in designing and deploying efficient software solutions. Driven by a constant desire for learning and personal growth, my goal is to contribute to ambitious tech projects while continuing to grow in the digital innovation sector.

Experience

DEWISE [🌐🔗], Final-year Internship

Nabeul, Tunisia
February 2025 – May 2025

- Designed and deployed a web application to manage an association's activities, including donor, family, and beneficiary management, using Angular, Spring Boot, and MySQL.
- Integrated advanced features such as online payment and instant messaging to improve user experience.
- Created dynamic dashboards to visualize and analyze activity statistics.
- Set up an automated CI/CD pipeline using GitLab CI/CD, Docker, and Kubernetes, deployed on AWS to ensure reliable and scalable deployment.
- Applied the agile Scrum methodology in four sprints to structure development and meet the association's needs.

DOTCOM [🌐🔗], Engineering Internship

Nabeul, Tunisia
June 2024 – August 2024

- Designed and developed an event management application using Node.js, Express, PostgreSQL, and Angular.
- Created interactive dashboards to display real-time event statistics.
- Developed dynamic features allowing associations to manage workshops, packages, and registrations.

DEWISE [🌐🔗], Introductory Internship

Nabeul, Tunisia
July 2023 – August 2023

- Developed a building management application using Spring Boot, Angular, and MySQL.
- Integrated key features tailored to the specific needs of the project.
- Optimized application performance with innovative technical solutions.

Projects

Easy-Recruit App

Oct 2024 – Jan 2025

- Designed an intelligent recruitment web app for companies.
- Integrated an AI model to automatically filter CVs.
- Automated interview scheduling based on candidate analysis results.

Credit App

github.com/mahmoud-slama/Creditappbackend 🔗
Sept 2023 – Jan 2024

- Developed a credit purchasing app using React.js, Spring Boot, and MySQL.
- Set up role-based authentication (salesperson and client).
- Managed clients, transactions, and payment deadlines.

Education

National Engineering School of Sousse (ENISo)

National Engineering Degree in Applied Computer Science

Sept 2022 – June 2025

Sousse, Tunisia

Preparatory Institute for Engineering Studies of Nabeul (IPEIN)

Admission to the engineering cycle entrance exam

Sept 2022

Nabeul, Tunisia

Mahmoud El Messadi High School

Baccalaureate Degree

June 2020

Nabeul, Tunisia

Skills

Languages: Java, JavaScript, TypeScript, Python, C

Web Technologies: HTML, CSS, React, Angular, Node.js, Express.js, Spring Boot

Databases: MySQL, PostgreSQL, MongoDB

Specialization: Web Development and DevOps

DevOps Tools Technologies: Git, GitLab, GitLab CI/CD, Docker, Kubernetes, AWS

Languages

Arabic: Native language

French

English
